

MUNDO SOLEO-S

Description:

Mundo LED solar type obstruction lights are the most compact, easy to install, endlessly reliable and ruggedly durable solar products on the market. Mundo LED solar type aviation obstruction lights meet ICAO standards along with CE certificate.

Especially at the high structures, where the connection of electricity is tough and not feasible, with the strong brightness and economical price, Mundo solar light is the best solution.

Key Features:

- Based on LED-technology
- Extremely reliable long lifetime
- Suitable for off-shore use
- With photocell for an automatic switch ON/OFF
- Easy to install
- Color options (red,amber,green,blue and white)

Models:

- SOLEO BF : LED flash
- SOLEO BS : LED steady
- SOLEO BI : LED Twin (synchronize or redundant)

Characteristics:

- LED : 140 pcs of ultra bright LED
- Aluminium Body
- Lens material Polycarbonate
- Nominal night range : +10 km
- Vertical radiation pattern : 45°
- Horizontal radiation pattern : 360°
- Life time : 100.000 hours
- Power consumption : less than 8 W
- Weight : 0.95 kg
- Degree of protection : IP 66
- Operating temperature range : -55° +55°
- Battery : 12 V/ 7.2 Ah x 2 pcs
- Autonomy at full charge : 4 days
